

Description :

Elock's RD100 ProxAce weatherproof 125KHz Wiegand 26 bits format proximity card reader with anti-collision function is an RFID (Radio Frequency Identification) reader at economical price.

Features :

- Proximity Technology
- Weatherproof and slim design
- Easy and trouble free installation
- Wiegand 26bit format
- Anti-collision function
- Controllable LEDs and electronic buzzer
- EM Proximity card compatible
- Exceptional level of detection capability, high reliability, consistent read-range and stability

Specification :

- **Reading Range** : Max 1.2" (30mm)
- **Input Voltage** : 9 ~ 16VDC, 12VDC (Recommended)
- **Current Consumption** : 48mA ~ 50mA
- **Data Format** : Wiegand 26bit
- **Carrier Frequency** : 125KHz
- **LED Indicator** : Red and Green
- **Cable Distance** : 100m
- **Dimension** : 97mm x 39mm x 13.3mm
- **Unit Weight** : 85g
- **Operating Temperature** : 0°C ~ 66°C

Dimension :
