SMART BIOMETRIC CABINET LOCK
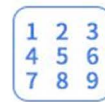

Powered by tuya
Intelligence Inside

Product description:

F-L300 is a touch keypad Digital Cabinet Lock which elevates security to the next level, blending sleek design with cutting-edge technology.

This cabinet lock can be unlocked by Fingerprint, IC card, Mobile application and reusable code as well as a one-time user code which erases after use as it unlocks the cabinet. This makes the F-L300 an ideal choice for lockers in a Gym, Sauna clubs, Schools, Hospitals, Supermarket, Swimming stadiums, library, factory and Offices.

Fingerprint unlock | Password unlock | Swipe to unlock | ttlock appUnlock | tuya appUnlock
